## RS DISTRICTS ENTRANCES

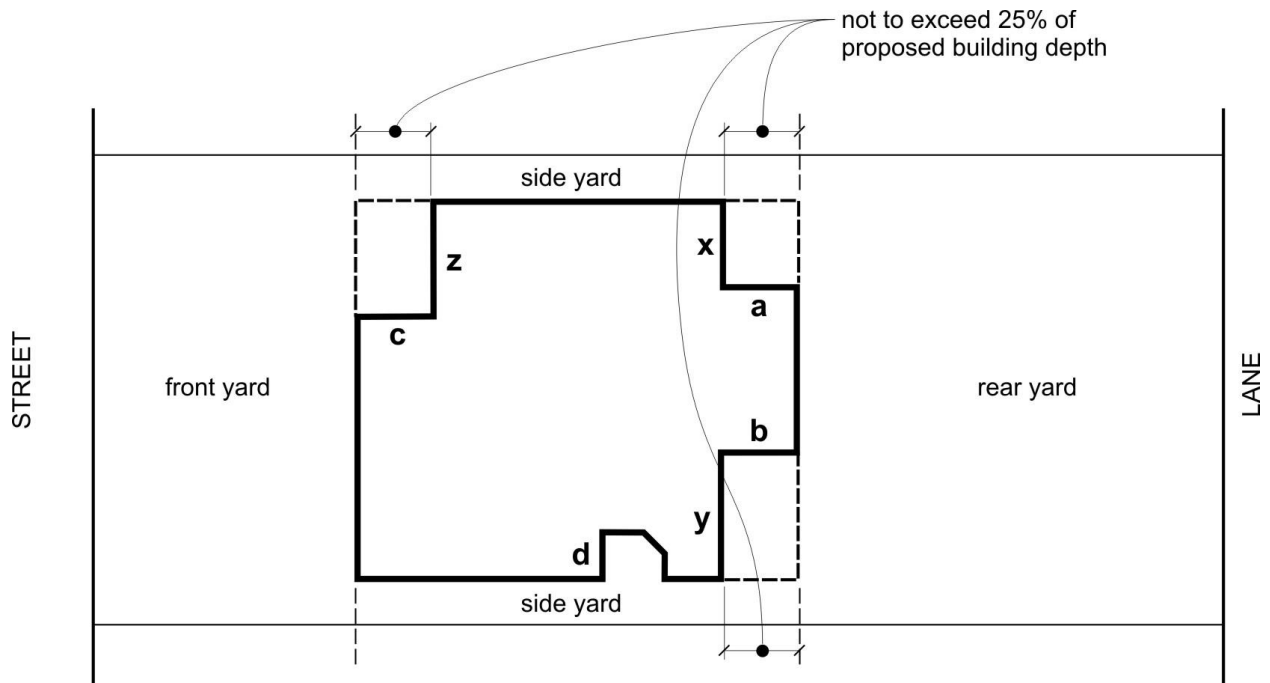

*Authority - Director of Planning*

*Effective November 28, 1990*

*Amended April 4, 2005*

Section 4.17.1, of the RS District Schedules should be consulted to determine what restrictions, if any, exist regarding the number of front and/or side entrances that can be provided.

Where restrictions do apply, the following diagram is a guide to certain types of entrances that could be considered front or side entrances.

- (1) Entrances in locations **a**, **b**, **c** and **d** are considered to be side doors.
- (2) An entrance in location **z** would be considered the front entrance of the building.
- (3) Entrances in locations **x** and **y** would be considered rear entrances.
- (4) Entrances in location **x**, **y** and **z** will be considered side entrances if they exceed a setback of 25% of the building depth measured from the outermost front or rear of the building.
