

POINT GREY ROAD, NORTH SIDE - FLOOR SPACE RATIO (FSR) CALCULATIONS

*Authority - Director of Planning
Effective February 22, 1980*

For the purpose of calculating FSR for developments on riparian sites located on the north side of Point Grey Road, the site depth will be determined by:

- (1) the "Fountain Line", being the northerly boundary referred to on the City of Vancouver maps; or
- (2) a registered survey certificate if submitted.
