RM-11 and RM-11N Districts Schedule

1 Intent

The intent of this Schedule is to permit medium density residential development primarily in the form of four-storey “T”-shaped apartments, and to foster compact, sustainable, multi-family neighbourhoods that support walking, cycling and transit use.

Emphasis is on a high standard of liveability and dwelling units that are varied in size, composition and tenure, including those suitable for families with children. Common and private outdoor spaces are required. Lock-off units are permitted, within limits, to provide flexible housing choices. All new development will demonstrate high-quality design and enrich the public realm.

Additional options for lower density development are only permitted on locked in lots, as set out in the RM-11 design guidelines. New one-family dwellings and new laneway houses are not permitted.

The RM-11N District differs from the RM-11 District in that it requires evidence of noise mitigation for residential development in close proximity to arterial streets or a rapid transit guideway.
