RM-7, RM-7N and RM-7AN Districts Schedule

1 Intent

The intent of this schedule is to encourage development of ground-oriented stacked townhouses or rowhouses, while continuing to permit lower intensity development. In RM-7AN, this includes courtyard rowhouses. Siting and massing of new development are intended to be compatible with, but not the same as, pre-existing single family development. Secondary suites and lock-off units are permitted, within limits, to provide flexible housing choices. Retention of character buildings and high quality design and livability standards are encouraged for new development. The RM-7N and RM-7AN Districts differ from the RM-7 District, because they require noise mitigation for dwelling units fronting arterial streets or in proximity to a rapid transit guideway.

Individual one-family dwellings and one-family dwellings with a secondary suite (with or without a laneway house) are permitted uses; however, if developed as the only principal building on a site, these uses are regulated by the RS-1 District Schedule. In all other cases, this schedule will apply.

2 Outright Approval Uses

4.15 Acoustics
4.15.1 A development permit application for a dwelling use in the RM-7N District requires evidence in the form of a report and recommendations prepared by persons trained in acoustics and current techniques of noise measurements, demonstrating that the noise levels in those portions of the dwelling units listed below, do not exceed the noise levels expressed in decibels set opposite such portions of the dwelling units. For the purposes of this section the noise level is the A-weighted 24-hour equivalent (Leq) sound level and will be defined simply as the noise level in decibels.
